

TYPES OF AAPS MEETINGS

Short Course:

A short course is defined as an educational endeavor, typically of lecture format, generally in which up to four prominent instructors introduce both the fundamental tenants and state-of-the-art practice of a particular or technique in a short period of time (preferably one day or less). Emphasis is placed on material suitable for those individuals newly entering the scientific field or returning to a field after a time of non-practice or non-application.

Short courses can be held in conjunction with the Annual Meeting, National Biotechnology Conference or separately. If held separately, the Program Coordination Committee (PCC) will review the proposal. Short course proposals for PCC review should be submitted to: www.aapspharmaceutica.com/meetings/meeting_proposal.asp. Short courses held in conjunction with the Annual Meeting or the National Biotechnology Conference should be submitted to those respective sites.

Workshop:

A workshop is defined as an educational endeavor to stimulate discussion of a particular topic or technique. Workshops can be 1-3 days. They are generally very interactive with a substantial amount of time set aside for questions and answers and sometimes breakout sessions. Emphasis is placed on material suitable for those individuals working in the scientific field. Workshops have a regulatory aspect and generally produce a white paper, summary report, consensus report or an FDA guidance consideration.

Workshops are reviewed by the Program Coordination Committee (PCC). Workshop proposals should be submitted to:
www.aapspharmaceutica.com/meetings/meeting_proposal.asp

Themed Meeting:

A Themed Meeting is defined as an educational endeavor, in the format of lecture, interactive roundtables, posters and exhibits. Emphasis is placed on material suitable for those individuals working in the scientific field.

Themed meetings are reviewed by the Program Coordination Committee (PCC). Workshop proposals should be submitted to:
www.aapspharmaceutica.com/meetings/meeting_proposal.asp

Annual Meeting:

Annual event which includes: sunrise sessions, symposia, interactive symposia, roundtables, posters, exhibits and a career center. Programming is submitted by the membership and selected by the Annual Meeting Program Committee (AMPC).

Members will be notified when the Annual Meeting Submission Site opens and closes. All programming ideas must be submitted to through this submission site in order to be considered for the final program.

National Biotechnology Conference:

Annual event which includes: symposia, interactive symposia, roundtables, posters, exhibits and a career center. Programming is submitted by the membership and selected by the National Biotechnology Conference Program Committee (NBCPC).

Members will be notified when the National Biotechnology Conference Submission Site opens and closes. All programming ideas must be submitted to through this submission site in order to be considered for the final program.
